

INTERNATIONAL PACKAGING CO. L.L.C.

OUT OF THE BOX
PACKAGING SOLUTIONS

A TRADITION OF EXCELLENCE

International Packaging Company (IPC), a member of the IFFCO Group, is a leading manufacturer of corrugated paper products in the United Arab Emirates. IFFCO is a UAE based corporation which manufactures and markets a wide range of mass market consumer products. The Group has manufacturing and marketing facilities worldwide. Among its well known brands are Tiffany biscuits, chocolates and confectionery, London Dairy ice creams, Noor cooking oil, Khaleej fish, meat and chicken products, Al Baker flour and frozen dough products.

Introduction to IPC

International Packaging Co. (IPC), a member of the IFFCO Group, is one of the leading and oldest manufacturers of corrugated packaging in the UAE. To support the rapidly growing needs of the industry in the region and its significant captive requirement, IPC has established a strong presence in the selected packaging products. IPC operates a world class corrugated plant in Ajman-UAE, serves customers across the whole GCC & MENA region and other parts of the world in Perfume/Cosmetics, commercial, industrial and agricultural markets.

IPC is also a leading manufacturer of micro fluting colored corrugated sheets in UAE. Over 10 years of experience in micro fluting production helped us excel in parameters crucial to produce best packaging for perfumes, cosmetics, novelties and other value added products. IPC is also capable to deliver high quality prints having complex designs, color schemes and minute registration details with the help of highly skilled and experienced staff.

Production Facility

Our plant amongst the largest in the region, is staffed with an experienced team of industry professionals who can pull out both standard & customized solutions for customers packaging needs.

Production floor facility includes:

- Production capacity of 5000 Metric Tons per month
- Automatic 5 Ply corrugator (2 lines)
- 5 color printing units (2 lines)
- Computerized state of the art ink kitchen
- Automatic case makers with rotary die-cutter, folder and gluer (4 lines)
- Automatic stitching (3 + 1 Twin head)
- Rotary die cutting with stacker (1 line)
- Flatbed die cutting unit (2 lines)
- Automatic laminator for duplex board (1 line)

We pride ourselves on accurately understanding customer requirements and translating them into corrugated packaging characterized by high quality material and strong functional performance.

Quality Control

IPC is an ISO certified company which ensures its high quality and international standards.

Our QC lab performs industry standard tests on raw as well as on finished materials.

GSM Test: To determine paper grammage.

Tensile Test: To determine strength, stretch & stiffness of the paper.

Edge Crush Test: To measure the edgewise compression of the paper / board.

And various other industry standard tests follows in order to ensure that best paper and board quality.

PAPER MAKES THE DIFFERENCE

A large measure of the quality of corrugating materials is determined by paper used in its production. IPC sources paper from world leading integrated paper mills in Europe and the Americas renowned for supply of high quality virgin grade brown and white Kraft paper. Our excellent relationship base built over many years ensures steady availability and supply even during periods of dislocations and shortages which frequently afflict global paper markets.

SERVING A WIDE RANGE OF MARKETS AND PRODUCT SEGMENTS

At International Packaging Company, we offer high quality, cost effective and innovative packaging solutions to meet the needs of all sectors of the market. We serve some of the leading names in the region. No matter what the nature of your end goods, we have the right kind of container for you. Fragile items such as eggs to fresh produce and chilled goods. Edible oil to lubricants, water and beverages. FMCG to hardware and industrial products.

MAKING YOUR PACKAGING STAND OUT IN THE CROWD

Contemporary market trends are leading customers to increasingly look at outer corrugated materials as an additional vehicle to reinforce product and brand presence.

This throws up requirements for more complex graphic design, color schemes and stringent printing demands such as minute registrations. IPC's key strength is its ability to deliver excellent print quality commencing with our value added graphic design unit leading onto a highly skilled production team which ensures that print specifications are met over the entire order run.

CORRUGATED CARDBOARD PACKAGING FROM IPC. HERE'S WHY.

- Environmentally friendly, 100% biodegradable and recyclable
- Excellent print quality and registration
- Sturdy and durable
- Smooth outer surfaces permit easy marking and printing
- No sharp edges that can cause harm during handling

OUR BOXES TAKE THE STRESS SO YOU DON'T

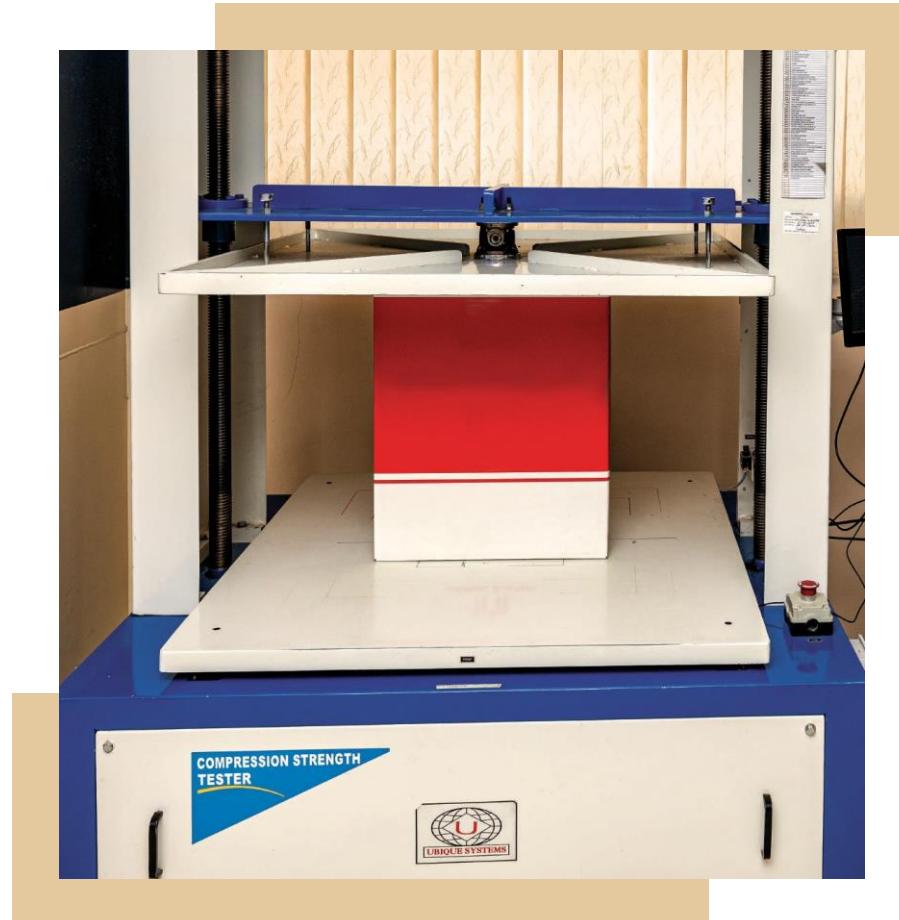

Our Quality Control Laboratory performs industry standard tests on the raw material as well as on the finished cartons.

Compression Test:

The box compression test determines the compression strength of a particular structure of carton or a certain grade of board. Compression strength determines whether the carton being tested is suitable for its intended use.

Burst Test:

Using a hydraulic operated burst tester, the puncture resistance of a particular piece of board is determined. Customers have specific requirements with regards to the burst strength of the carton which is closely monitored by us.

OUR PRODUCT RANGE

- Regular slotted cartons
- Die cut cartons and trays
- Half slotted top and bottom cartons
- Die cut self locking trays
- Retail ready boxes and Point of Purchase displays
- Micro flute sheets and fitments
- 2 ply rolls and sheets
