COMPANY OVERVIEW

Established in 1975, IFFCO is a multinational group based in the United Arab Emirates which manufactures and markets a well-integrated range of mass-market food products, related derivatives, intermediates, and services.

IFFCO runs 95 operations in 49 countries around the world and employs more than 12,000 people. Its products reach 5 continents. With a portfolio of 80+ brands, it has firmly established itself as one of the main and most diversified groups in the Middle East.

HISTORY

IFFCO has been manufacturing vegetable oils for over three decades. During this period the company has invested in technologies, gained consumer insights and garnered an in-depth understanding of different customer segments.

It has today emerged as one of the largest manufacturers of value-added vegetable oils and fats in the world with a range of oils, oil blends, bakery fats, specialty fats, margarines and butter blends. Our brands are trusted everyday by millions of consumers and customers across various food and non-food industries and the food service channel.

OUR RANGE OF PRODUCTS

Our commitment to superior quality and customer satisfaction has paved the way for product development initiatives like Trans Fat Free cooking oils.

The company boasts a range of healthy oils and margarines comprising of Sunglower Oils, Canola Oils, Olive Oils, Corn Oils and various healthy blends that provide benefits, ranging from being low in saturated fats and high in monounsaturated fats, to rich in Omega 3 and fortified with vitamins.

IFFCO's expertise and experience in edible oils and fats provides a ready platorm for developing and marketing a range of tailor made specialty fats, shortenings and margarines for institutional and food service applications.

Each of our IFFCO brands features attractive and prominent packaging, which makes it stand out on crowded retail shelves. Supported by well-planned marketing strategy, based on building brand equity in all our markets, all our brands reach out to their target audience and enjoy good market share.

NOOR FAMILY

Noor; the flagship brand in the IFFCO portfolio, is a supper brand in the edible oil segment in the GCC region. Our genuine concern for health and well-being of adults and children in the region has helped us educate consumers on the benefits of Noor Sunflower Oil which is fortified with Vitamins A & D through our advertising, not only helping them to prepare delicious meals but to stay in shape by encouraging a healthy lifestyle. Noor has also innovated the category with Corn+ Oil, a 100% corn oil which is enriched with Zinc; Zinc has the properties which helps transform the fat into energy, making Noor Corn+ Oil the first of its kind in GCC region to encourage the vitality of our consumers. Noor has further expanded its range with Frylite Oil which is the region's first specialty Frying Oil, for the ultimate 'crunch' frying experience that helps make food deliciously crunchy and light on the stomach and introducing Noor Olive Cooking Oil which has the rich goodness of Olive Oil with the benefits of having a comparatively healthier composition of fats, a high heat resistance, and rich antioxidant properties, all of which lends extra health and taste for cooking and frying healthy dishes. Completing the line-up is Noor Canola Oil, which is rich in Omega 3 and has 50% less saturated fat than corn oil. It makes a valuable contribution by addressing the needs of consumers who are concerned about their heart health. The Noor range of edible oils is available in a distinctly recognizable shape across different pack sizes as well as formats.

OLIVE OIL

THE GOODNESS OF MEDITERRANEAN OLIVE OIL

Celebrated as the greatest source of monounsaturated fat, olive oil preserves the natural taste, aroma and health benefits of the olive fruit Olive oil contains a high level of antioxidants, particularly vitamin E and phenols. International studies have shown that olive oil offers protection against heart disease by controlling LDL (bad) cholesterol levels while raising HDL (good) cholesterol in the body.

CHARACTERISTICS

Extra Virgin, first cold pressed from selected Mediterranean olives.

BLENDED OIL

PERFECT BLENDS FOR HEALTH AND TASTE

Blended oils combine the health and taste of various oils, a concept that has found consumer acceptance worldwide. Our brands of blended oils have incorporated the health-giving benefits of sunflower oil with other vegetable oils, offering the consumer cooking oils that are low in cholesterol and saturated fats. Another advantage of our blended oils is their rich Omega 3 fatty acid content and vitamins.

CHARACTERISTICS

Light. No cholesterol, low in monosaturates and rich in Omega 3.

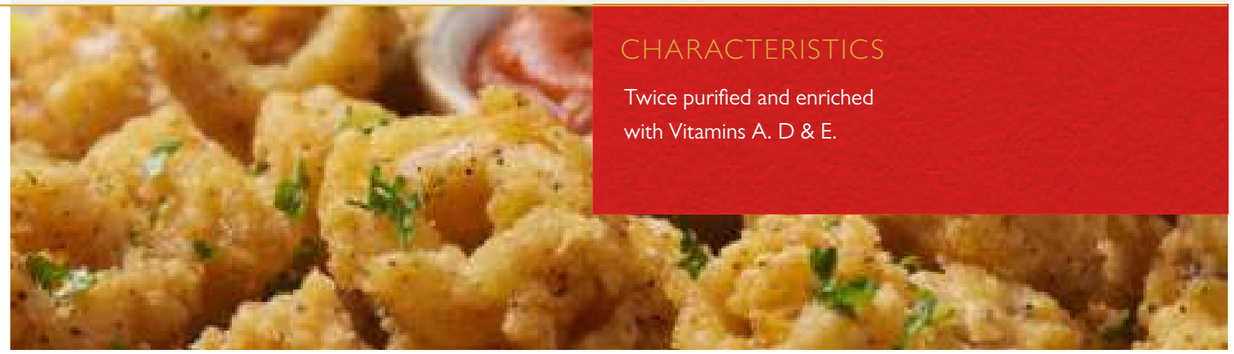

SUNFLOWER OIL

IDEAL FOR HEALTHIER COOKING

Sunflower oil is light in consistency and odourless, which helps it preserve the natural aroma and taste of food cooked in it. Rich in vitamin E and low in saturated fats, sunflower oil also helps to retain moisture in the skin, preserving its youthfulness and acting as a barrier against infection.

CHARACTERISTICS

Twice purified and enriched with Vitamins A. D & E.

CORN OIL

THE WHOLESOME GOODNESS OF CORN

Corn oil has long been the favourite of homemakers the world over. Its robust flavour and taste has especially been cherished. Extracted from maize, corn oil is rich in vitamin E, making it a tasty and healthy cooking choice. Corn oil has no cholesterol and is easily digested. Retaining the natural goodness of corn, the oil provides essential fatty acids necessary for an active life.

CHARACTERISTICS

Specially refined 100% pure corn oil. No cholesterol and low in saturated fats.

VEGETABLE OIL

IDEAL FOR TASTIER COOKING

Tremendously popular for frying, palm oil is extracted from the palm fruit Palm olein is a well-balanced oil containing essential fatty acids. In addition, it is also rich in ;eta-carotene and vitamin E.The oil helps in preserving the freshness and crispness of fried food and snacks.

CHARACTERISTICS

No cholesterol, refined and deodorised.

VEGETABLE GHEE

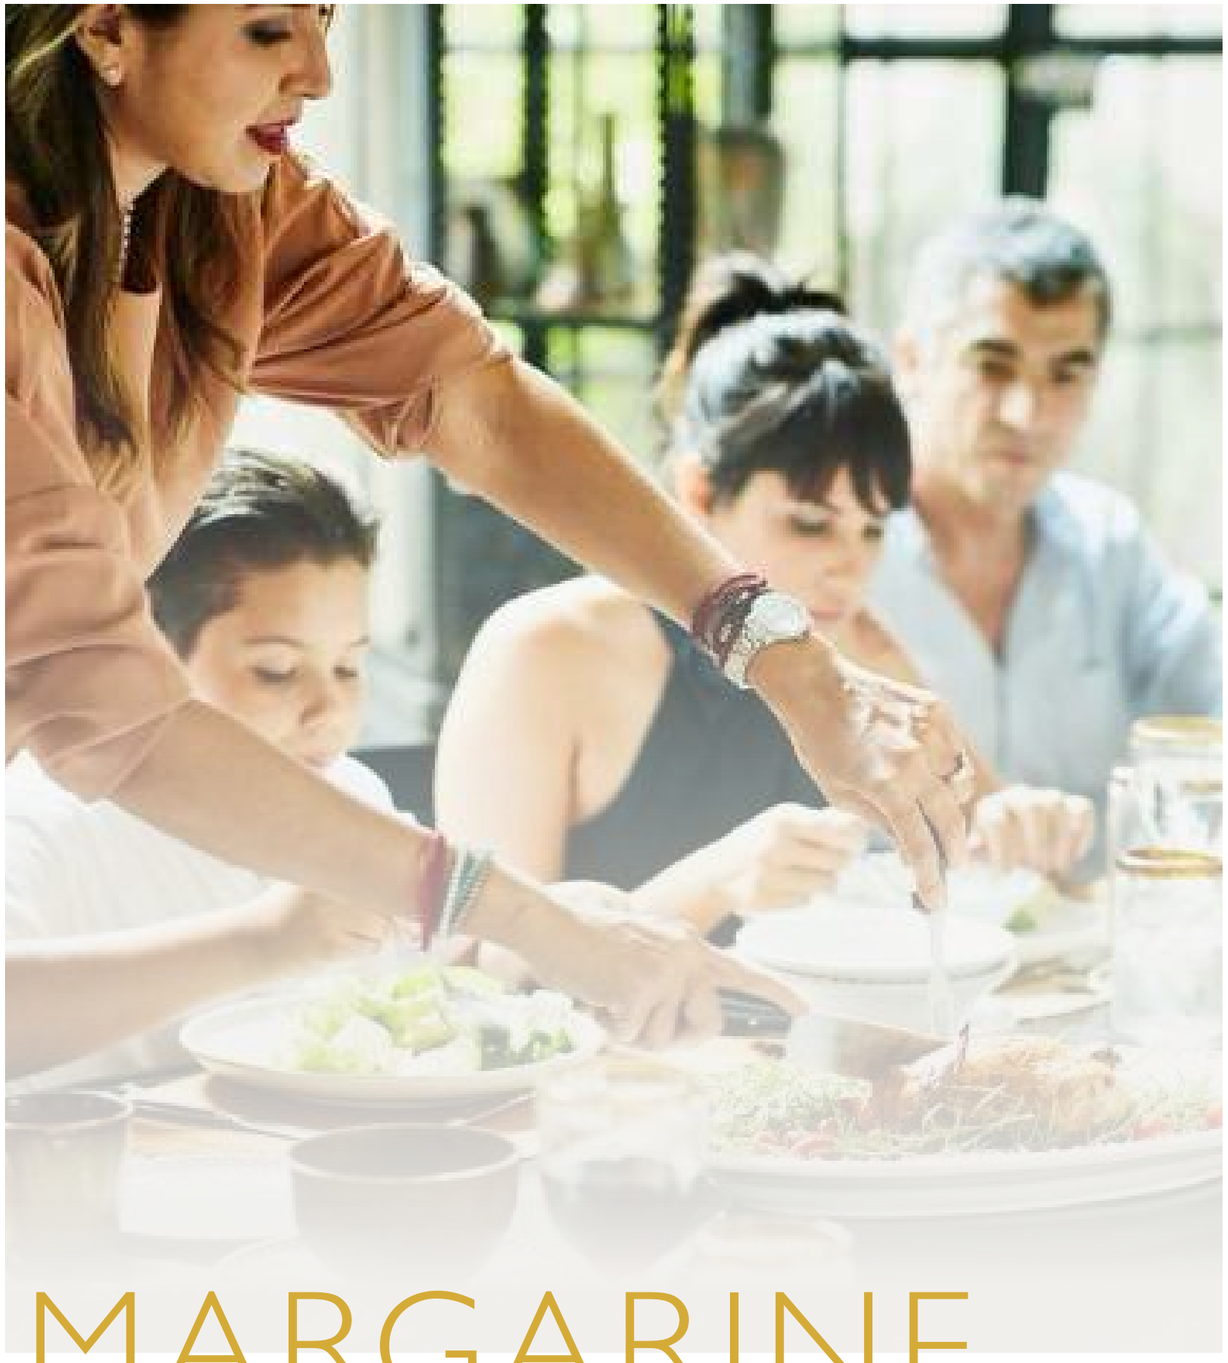

IMPARTING TRADITIONAL AROMA AND TASTE

Cooking with ghee is a cherished practice in many cultures. Helping the consumer enjoy traditional taste at affordable prices is our range of vegetable ghees. Imparting the rich taste of ghee while at the same time being healthier, vegetable ghee is a boon to the busy homemaker.

CHARACTERISTICS

No cholesterol, rich aroma and long shelf life.

MARGARINE

SPREAD SOME TASTE AND GOODNESS AROUND

Over the years, margarine was used as spreads as well as for cooking purposes. Spreadable, long shelf life, lower saturated fats have made margarine a popular and considered choice of homemakers all over the world. Made from a blend of vegetable fats, milk and emulsifiers, margarine is rich in vitamins and has the recognised health advantages of sunflower oil and a well-loved butter flavour.

CHARACTERISTICS

Zero cholesterol. Rich in vitamins, easily spreadable and butter flavoured.
